

AceD & GIN Strategic Merge

It is with great pleasure to announce that GIN and AceD communities will be merging. We will keep this announcement short and to the point because time is of the essence.

What is AceD?

AceD is primed to become a robust digital entertainment hub, with a newly released crypto-based sportsbook, and plans to offer live-sports streaming and table games such as Poker, Blackjack, Bingo, and much more. So essentially you can make bets on your favorite sports teams, watch your teams compete, and play Poker all at the same time and place. The platform token currency is AceD (ERC20), but will also accept BTC and ETH. Discounts, perks, losing bet cashbacks, and other incentives will be in-place for people who transact with AceD.

AceD has recently completed a migration to Ethereum to allow for increased exposure, liquidity, and integration opportunities.

Why Merge?

A merge is mutually beneficial:

For GIN:

The original plan was to open-source the current-state of GEA to the community in hopes the community can run off with it, but there's been lack of engagement, and GIN team feels it's unlikely the community will make something happen on their own. There is no money to hire outside developers and we are probably close to being de-listed from Livecoin. **The remaining value in GIN is in the community and the GEA concept.**

For AceD:

- AceD will benefit from a larger community made up of good quality people. A merge will bring in more users and awareness to AceD's sportsbook, entertainment hub, and ecosystem.
- AceD has the developer resources to continue w/ GEA protocol as a separate division. We will be able to form a dedicated team and essentially hit the ground running. We still have all the potential use-cases documented from last year which we will revisit and discuss, and there may be opportunity to utilize GEA for enriching components of AceD's entertainment hub.
- AceD will take over and put life back into GIN's Livecoin listing and social media accounts.
***Note:** Livecoin is not currently listing new coin's, so we are in talks with them to honor the switch once this temporary restriction is lifted.*

Swap Ratio, Dates and Times:

Swap Ratio	Start Datetime	End Datetime
1 GIN for 2 AceD	Thursday, June 11 th at 12:00AM EST. (4:00 AM UTC)	Thursday, July 2nd at 11:59 PM EST. (3:59 AM UTC)
1 GIN for 1 AceD	Friday July 3rd at 12:00 AM EST. (at 4:00 AM UTC)	Friday, July 9 th at 11:59 PM EST. (3:59 AM UTC)

Sorry for tight timelines, but AceD team needs to move swiftly on this swap as exchange trading will continue to be halted until the first phase of the swap is complete. AceD is eager to complete these swaps and continue focusing on product enhancements, development, and marketing. Once the first swap phase is complete, AceD can re-open trading and we can move forward together as a single unit.

We will do our best to notify community members. I hope most long-term GIN community members can take advantage of the 1:2 swap.
